

hansgrohe

Innovative sinks & kitchen mixers from hansgrohe

The new heart of the kitchen.

Granite sinks

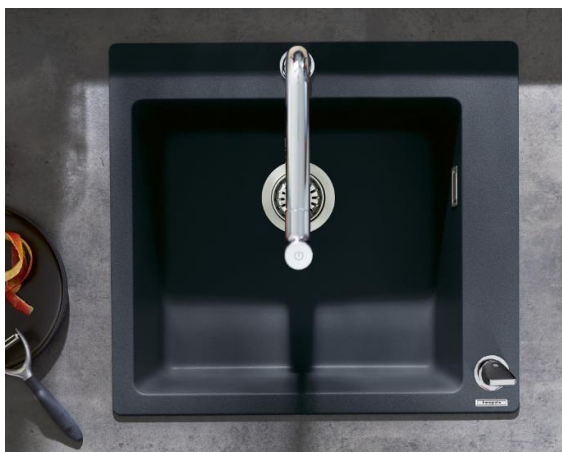

An overview of the options

Whether in combination or alone, the perfect product for your dream kitchen.

Sink combos

- The perfect blend of look and function
- **Two** comfortable and intuitive control concepts
- All-in-one: Simple order process

Stand-alone sinks

- Different options for installation and combination
- Can be combined with every kitchen mixer as desired

Kitchen mixers

- Easier control thanks to innovative kitchen mixers with Select technology and pull-out spouts
- New product: sBox keeps your sink cabinet tidy and ensures you can pull the spout out effortlessly

Design

New design benchmarks in the kitchen.

+ **Minimalistic design blends perfectly with the modern kitchen ambience**

+ **Timeless**
Rectangular basic shape provides clear lines

+ **Aesthetic**
Its wide design and hand-brushed L-shaped basin rim make this sink a real eye-catcher in the kitchen

+ **Individual**
Choice between different basin shapes and sizes

All sinks are available in the following installation options

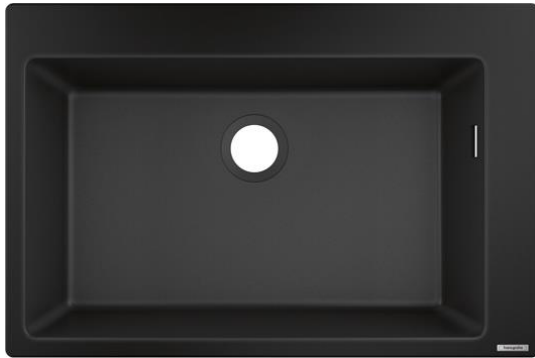

- Top-mounted installation
- Flush-mounted installation (only for stainless steel sinks)
- + other versions for under-mounted installation

Finishing granite sinks

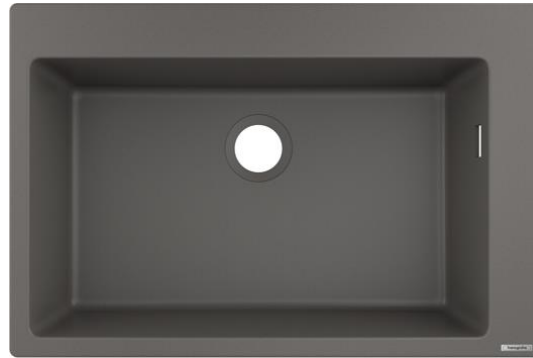

New design benchmarks in the kitchen.

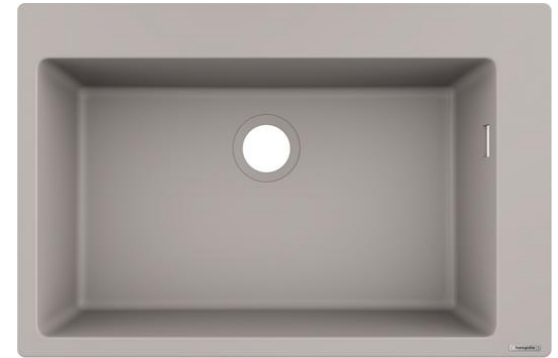

Natural materials and colours in the kitchen

Built-in sink 660 in graphite black

Built-in sink 660 in stone grey

Built-in sink 660 in concrete grey

hansgrohe granite sinks are made of SilicaTec, which is manufactured from regional materials. Only edge-rounded quartz particles are used, as these provide a smooth, non-porous yet tough and durable surface.

Components of SilicaTec:

- Ca. 80% fine quartz sand, the hardest constituent of granite
- Ca. 20% acryl of high-quality as binding agent and colour pigments

Stainless steel sinks

An overview of the options

Whether in combination or alone, the perfect product for your dream kitchen.

Sink combis

- The perfect blend of look and function
- **Two** comfortable and intuitive control concepts
- All-in-one: Simple order process

Stand-alone sinks

- Different options for installation and combination
- Can be combined with every kitchen mixer as desired

Kitchen mixers

- Easier control thanks to innovative kitchen mixers with Select technology and pull-out spouts
- New product: sBox keeps your sink cabinet tidy and ensures you can pull the spout out effortlessly

Design

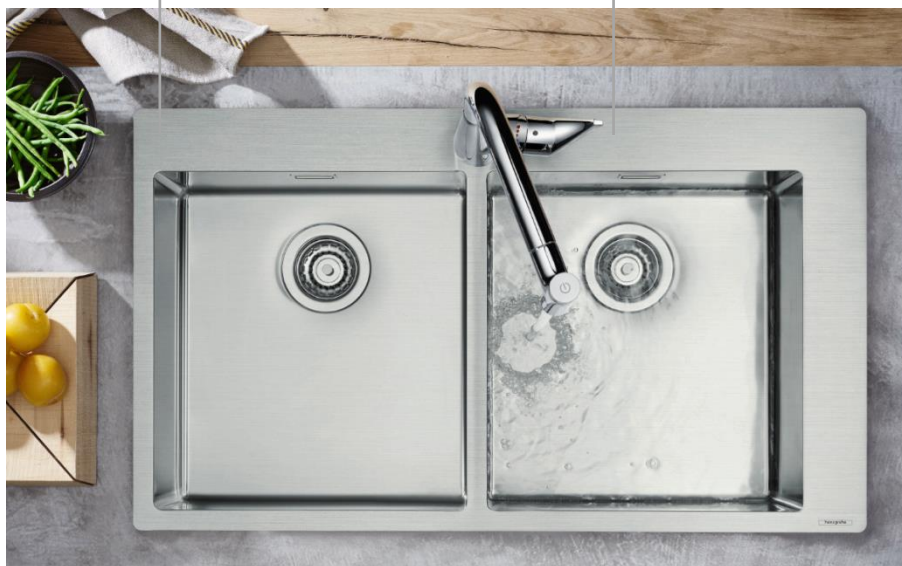

New design benchmarks in the kitchen.

+ **Minimalist design blends perfectly with the modern kitchen ambience**

+ **Timeless**
Rectangular basic shape provides clear lines

+ **Aesthetic**
Its wide design and hand-brushed L-shaped basin rim make this sink a real eye-catcher in the kitchen

+ **Individual**
Choice between different basin shapes and sizes

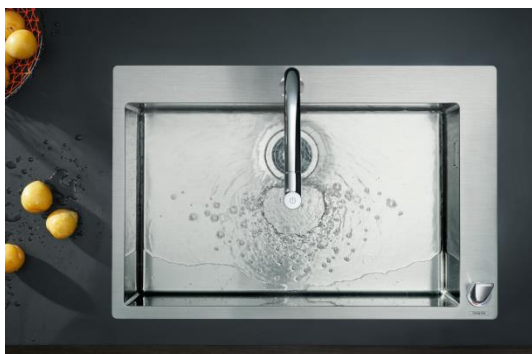

All sinks are available in the following installation options

- Top-mounted installation
- Flush-mounted installation
- + other versions for under-mounted installation

Finishing

Quality you can see.

+ Solid sense of style

- Robust, resistant stainless steel
- Look that matches all kitchen mixers

+ High level of quality for long-term enjoyment

- 1 mm thick hand-welded stainless steel
- Easy to clean & resistant to aggressive substances
- Precisely formed edges and 10 mm corner profile

+ Stability

- Incorporated stiffening bracket to hold the mixer in a stable position
- Double-strength material below the basin rim ensures additional stability

Functions

Innovative functions for intuitive operation.

Control option 1

Combi C71-F660-08, comprising the build-in sink 660 and M7119-H200, 2-hole Select kitchen mixer with a pull-out spout

sBox

sBox installation

Flexible & practical installation.

Centred, straight

- Standard placement
- Lower brackets are screwed into the base
- Upper brackets are screwed into or hung on the rear wall

Centred, tilted backward

- Placement when rear wall is not aligned with back of base or to get around obstacles
- Maximum recommended angle of tilt: +/- 20°

sBox installation

Flexible & practical installation.

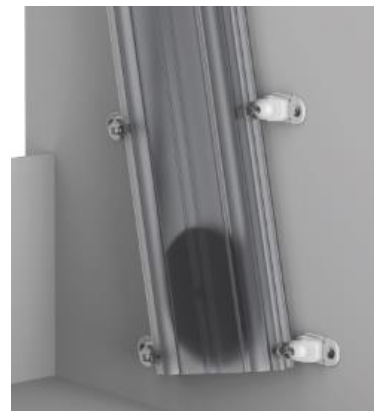

**Against rear wall,
tilted to side**

- Placement to avoid obstacles on base or hard-to-access corner valves
- Maximum recommended angle of tilt: +/- 20°

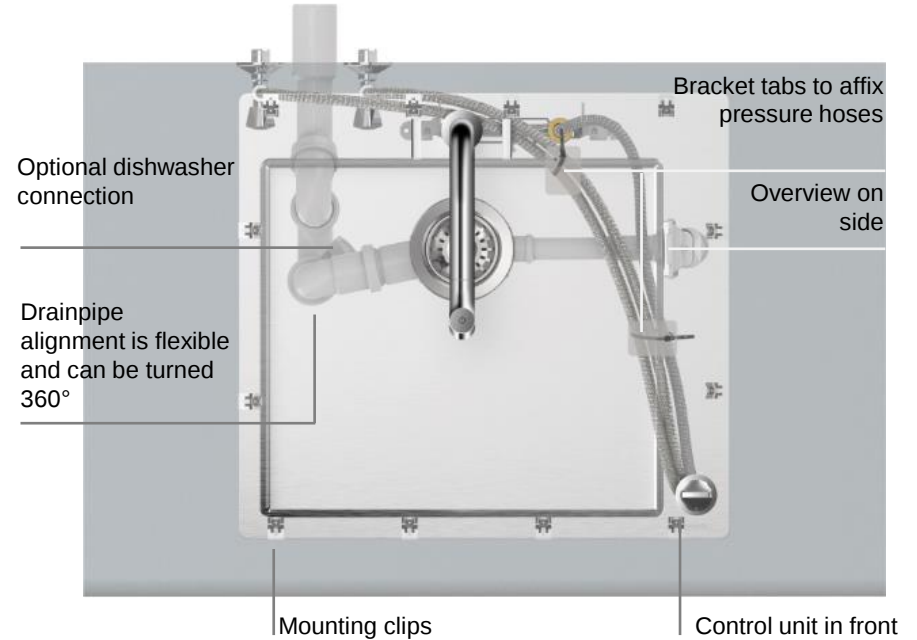

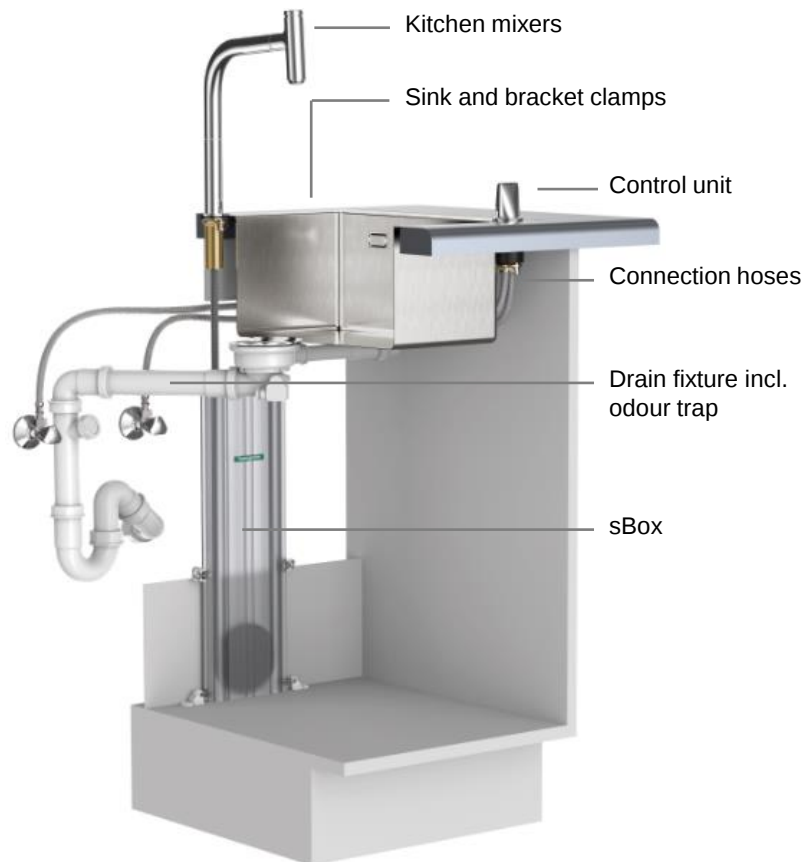

**Tilted and attached
to side wall**

- Placement for corner sinks, sinks with drainboards and sinks with tap holes on the side

Sink combi installation
